

Shaklee

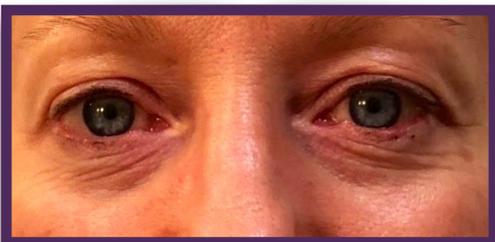

Wouldn't you love to have brighter, smoother, more youthful-looking eyes?

Now you can!

INTRODUCING
YOUTH Restoring Eye Treatment
by Shaklee

7 DAYS TO "AMAZING"!

A 28 Day Clinical Trial Revealed this New Eye Treatment:

- * Reduces the appearance of puffiness and dark circles.
- * Helps smooth the eye contour and visibly firms and hydrates.
- * Contains a unique peptide blend shown in a clinical study to reduce the appearance of lines and wrinkles around the eyes, and crow's feet in as few as 7 days.

Here's my seven day before and after ... it's downright amazing! And the best news is it's a healthy product, it's not a pharmaceutical sold over the counter that causes increased sagging later on as in so many other skin products on the market! I can't believe I'm putting my bare eyes out there but I have to because it's such an amazing change! Cheri Gumley

Sometimes changes are so subtle you can hardly notice them unless you take a picture and put it next to the one taken just 7 days previous. Yes, in just 7 days after starting the Restoring Eye Treatment, my eyes changed this drastically. Amazing, isn't it? Marion Barreto

Improves Memory & More

MIND WORKS is powered by an exclusive chardonnay seed extract and specially selected guarana.

Only available to Shaklee, the unique chardonnay grape seed polyphenol blend is made with a patent-pending extraction process that concentrates specific polyphenols that are clinically proven to be more bioavailable and impact blood vessel function. This extract is designed to help make vital nutrients available to the brain by supporting healthy circulation.

Our carefully selected guarana extract has been extensively tested—guarana has long been used traditionally by Amazonian Indian tribes. It helps improve cognitive performance and contains less caffeine than a medium cup of decaf coffee.

MindWorks is a formula with both immediate and long-term benefits on the brain. Its key ingredients have been scientifically shown to address brain related problems from three different directions: maintain the integrity of neural connections, promote the formation of new neural connections (and reduce brain shrinkage), and support oxygen delivery to the brain. These claims are based on a 2 year study on over 200 adults suffering from cognitive impairment.

Brain Clarity and Improved Eyesight . . . "I was in a car accident 2 yrs. ago. From then on, I wondered what had happened to my mind; everything was so confusing! My first day with MindWorks felt like my brain got cleansed ... clarity returned. The after effects of the car accident on my brain were gone. I think it is improving my eyesight as well. I had to use a magnifying glass for small print all the time and have noticed a huge improvement. Thank you Shaklee." ~ Mary from NY

GREAT TASTING ... High Fiber Snack Bar

How does high fiber help your heart? ... fiber in your diet, especially soluble fiber, acts like a sponge, and absorbs cholesterol and triglycerides and takes it out of the body in waste. That is why apples, oatmeal, cabbage, chia seeds, etc. are very popular in a heart-healthy diet.

Many people LOVE Shaklee's convenient, on-the-go, Fiber Advantage Snack Bar. This gluten-free fiber bar contains 8 gms of fiber per bar plus a smorgasbord of fruit and vegetables.

**Fiber Advantage Bars are 100% natural
and 100% delicious.**

Shaklee Fiber Advantage Bars have everything your taste buds crave. Delicious apples, dates, and whole grain rolled oats packed into each scrumptiously chewy, cinnamony bar. The best part? You get a healthy blend of fibers in every yummy bite to help keep your digestive system running smoothly. Who knew something so good could be so good for you? Fiber Advantage Bars contain a unique blend of fibers that promote regularity, digestive health, and long-term colon health. In every bite you'll get a mix of soluble and prebiotic fibers from apples, dates, oats, inulin, and other natural sources; insoluble fibers from whole grains and vegetables; and even a special type of insoluble fiber from corn called resistant starch.

Another Study Confirms **SOY** is Not Only **SAFE**, But **BENEFICIAL** For All, Including Breast Cancer Survivors!

The pros and cons of soy for breast cancer patients have been debated for years. Now, research involving more than 6,200 breast cancer survivors finds that those who ate the most soy had a lower risk of death from all causes during the nearly 10-year follow-up period. "We didn't find any harmful effects of women diagnosed with breast cancer consuming soy in terms of mortality," said study leader Dr. Fang Zhang, an assistant professor of epidemiology at Tufts University's Friedman School of Nutrition Science and Policy in Boston. "Overall, consuming higher levels of soy is associated with a 21 percent reduction in the risk of death compared to women who consumed soy at a lower level," she said. <http://www.chicagotribune.com/lifestyles/health/sc-soy-benefits-breast-cancer-survivors-health-0315-20170309-story.html>

Hot Flash HELP

Joanne shares: "I have been going through menopause for a while, but Recently started to have **HOT FLASHES** so I went to a gynecologist and he recommended hormonal treatments and gave me a prescription. I had it filled and it had so many side effects ... I thought there must be another way! So I called my Shaklee distributor and she suggested I add Shaklee **Soy Protein, GLA, and Menopause Balancing Complex** to my supplement routine. Well within a short period of time my hot flashes stopped. **It has been four months and no hot flashes!**"

6 Year Old Battles PSORIASIS

My 6 year old granddaughter Haylee, developed very severe psoriasis all over her back, neck and face. My daughter took her to a number of doctors, tried numerous creams and medications, but nothing worked. Finally the doctor told her she was going to need twice weekly steroid shots in the abdomen. My daughter was to administer them at a cost of \$1,000 a month. She came home in tears.

I said, "OK my turn." Haylee had been on Ocean Wonders and Vita C and occasional protein drinks. I put her on 2 Omega's, 2 Vita Lea, 2 Sustained Release Vitamin C, and 2 NutriFeron. Her rash was gone within a week. It hasn't returned. Patti R.

I lost 50 lbs and was able to get off most of my medications. I'm setting a goal to lose more. Donna
