Get Clean...Best I've Found

It's safe for people and the environment, economical and best of all, it works! I've used this for about 40 years and even when I had a housecleaning company we used it to wash our rags because it was the most economical product we could find and it does everything it says it will do.

*Laundry Performance:
So effective that you can use it for spots and it works! Kandy*

“GET CLEAN” by SHAKLEE
one of
“OPRAH’S FAVORITE THINGS”

Cleaning Supplies and Household Chemicals

Cleaning is essential to protecting our health in our homes, schools and workplaces. However, household and cleaning products—including soaps, polishes and grooming supplies—often include harmful chemicals. Even products advertised as “green” or “natural” may contain ingredients that can cause health problems. Some cleaning supplies can even be flammable or corrosive. Fortunately, you can limit your exposure to those risks. Read all labels and follow instructions when using cleaning products. It could save your life.

AMERICAN LUNG ASSOCIATION

SHAKLEE Fresh Laundry ... Natural & Effective!

Powerful two-for-one concentrate to pre-spot and wash your laundry. HE Compatible! Ideal for standard washers. Available in Scented or Fragrance Free.

SPOT REMOVER: It out-removes big-name spot removers. And it does it while protecting natural resources. How's that for a breath of fresh laundry?

When used as a stain remover:

46% more effective than OxiClean® Versatile Stain Remover

21% better than Resolve® Laundry Pre-Treater

PLUS it is much more concentrated than most other laundry products.

Source: Sterling Laboratories. These performance comparisons were conducted on Oct. 8 and Oct. 14, 2013, and October 30, 2014 and are valid only for the named products marketed at that time.

Allergies, Asthma, Arthritis, Low Milk Supply? Have you tried Alfalfa?

Alfalfa contains a wide variety of minerals including iron, calcium, magnesium, phosphorus, sulfur, chlorine, sodium, potassium, silicon, and trace elements. It is also a good source of vitamin E, vitamin C and vitamin K, which is necessary for blood clotting.

Alfalfa's special claim to fame is not only its nutrient profile but also how easily the body can absorb and assimilate it. Alfalfa is generally considered safe for children, adults, and pregnant and nursing mothers for nutritional support.

- ◆ cleansing the blood
- ◆ alleviating allergies...natural antihistamine
- ◆ promoting healthy blood clotting
- ◆ natural diuretic *
- ◆ supporting digestion
- ◆ easing morning sickness *
- ◆ impacts bad breath and body odor
- ◆ anti-inflammatory
- ◆ increasing milk supply during nursing *
- ◆ fighting gout
- ◆ relieving all forms of arthritis

Why Shaklee Alfalfa

Alfalfa Complex contains only nature's premium quality alfalfa, grown in the Antelope Valley of California, the richest source of trace minerals in the world.

It is high in protein and contains eight digestive enzymes. Shaklee's Alfalfa is grown with no pesticides, fungicides, bactericides, inorganic fertilizers, synthetic hormones, growth regulators or chemicals. Throughout growing and processing, Shaklee requires strict growing techniques and they have careful controls to help retain the nutritional qualities of the original alfalfa plant even from other nearby farms. No artificial flavors, sweeteners, colors or preservatives are added in the tableting process. Caffeine free. Gluten-free. Vegetarian formula.

ASTHMA INHALER GONE!

My husband used to suffer with asthma for most of his life and always had an inhaler. When he would get a cold or flu, it would often turn into a respiratory infection or bronchitis. Once we switched to healthier cleaners and laundry products after my daughter was born, his asthma symptoms disappeared and on the rare occasion that he feels asthma symptoms starting or a cold starts, he takes Alfalfa to help keep his lungs clear and to calm the inflammation so it doesn't turn into an infection or linger for a long period of time, it's really been an incredible product for us!

Rachael

Spring & Fall Allergies

To control my spring and fall allergies, I take 20-25 Shaklee Alfalfa a day. When I start sneezing or my nose twitches, or my eyes itch or water, or my throat starts itching, I begin my "Remedy For Relief" before things get out of control. I take 5 Alfalfa at each meal and at bed time. I no longer take allergy drugs or injections or pay doctor bills to bring me comfort. It's wonderful! Once my allergy season is over, I still continue to take 5 Alfalfa a day at breakfast.

Carol B

NOTE: NutriFeron is another supplement that Allergy/Asthma sufferers find very beneficial.

*Looking Good
Jennifer!*

I decided to take another picture after using youth for a few months longer. I did not see any change after 60 days. So now it is almost 8 months. Today I turn 54 and I DO see a difference.! Thought I would share to encourage folks to stick with it.

RECOVER "FAST" & BUILD MUSCLE

I own a horse ranch and raise horses in Madras , OR. Last spring, I had an accident and broke my pelvis in two places. My Shaklee Rep. encouraged me to try the Physique and the Vita Lea Gold. Well, I was walking without a walker in three weeks, off my crutches by five weeks and returned to riding by month four.

It was a fantastic recovery. I'm so impressed with my recovery. I love to start my day with this powerful muscle builder.

This year I've increased the number of horses on my ranch and I'm in the process of renting out sites for Eclipse watchers. Last year I would have never thought that I would be healthy enough to do these things.
Sincerely, Susan Brown

Performance Physique + Bio-Build® Recovery Shake

High-octane fuel for rapid muscle recovery

Helps build firm lean muscles
Helps restore muscle energy and support muscle repair

Performance Physique + Bio-Build Recovery Shake is a pure high-octane fuel for rapid muscle recovery. Made with our powerful Bio-Build† blend, a mix of intelligent-release protein and carbohydrates, clinically proven to naturally activate the body's recovery process. Delivers more energy to the muscle than either carbohydrates or protein alone.

To help maximize recovery, consume immediately after working out and again two hours later.

SHAKLEE CONTACT:

#1 Children's Vitamin in US Contains: Aspartame, GMOs, Coal Tar Artificial Coloring Agents!

The #1 Children's Vitamin Brand in the US contains ingredients that most parents would never intentionally expose their children to, so why aren't more opting for healthier alternatives?

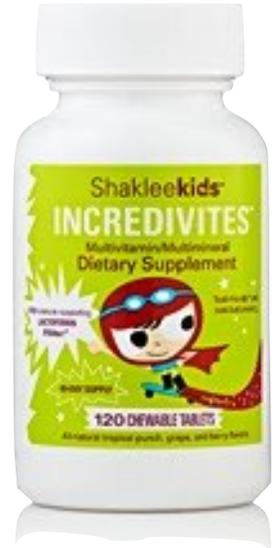

Kids vitamins are supposed to be healthy, right? Well then, what's going on with Flintstones Vitamins, which proudly claims to be "Pediatricians' #1 Choice"?

Compare Flintstones With INCREDIVITES by SHAKLEE "A comprehensive All Natural Vitamin!"

Incredivites is loaded with 23 essential vitamins and minerals.

There are no added artificial flavors, sweeteners or preservatives, it's gluten free and naturally sweetened with xylitol, which does not promote tooth decay.

It contains lactoferrin, which supports a healthy immune system in kids and comes in all natural (and yummy) flavors of tropical punch, grape, and berry.

- Works on athlete's foot
- Foot deodorizer
- Softens cuticles
- Relief from aching muscles
- Diaper Rash ... wash with diluted Basic H2, then apply Herbal Blend
- Relieves redness, itching and inflammation from psoriasis
- Headaches ... rub on temples and forehead
- Dry itchy legs

PEOPLE REPORT THEIR RESULTS

1. "I cured seeping **psoriasis** on our son's scalp when he was about 20 years old by having him wash his head each night with Basic-H, and every morning I rubbed Herbal Blend on his scalp ... it worked!"
2. "I removed a **wart** by applying the cream and covering with a band-aid. The wart went away in about a week."

3. "I had a **ganglion cyst** on my wrist about the size of a medium-sized pea for 35 years. Doctors drained it but it came back. I put the cream on it once a day, and in two weeks it was gone and there was not trace of it. That was two months ago."
